### June 2019 Part B pdf

#### *A lovely story from Elizabeth Fewer*

A friend gave me permission to share this. I can imagine Bunty (Severs) doing backflips of joy wherever you imagine her to be:

On a recent Saturday, a friend's daughter was looking to occupy herself while her parents were busy doing home renovations. She asked permission to raid the craft and sewing supplies, pulled an old Better Homes and Gardens Christmas crafts book off the shelf and picked out the Mouse Chorister to make. It was successful and she had figured out the design elements from the mouse pattern. So... she designed and made the cat before they knew what she was doing. Every stitch is entirely done by her hand because as she put it "I don't like it when people say they made it by hand but I can see that they really made it by glue."

And yes, Youth Guild is on her list for future activities because she has already completed her first embroideries....monograms for all her friends.

And, also from Elizabeth: You may be interested to learn about a marvelous altar cloth that is being displayed at St. Paul's Cathedral, London.
